

Credit Check v2

Convenient access to extensive bureau datasets, get credit reports and much more.

Experian Credit Check is an online platform facilitating access to credit bureau data for the purposes of performing a Credit Bureau Enquiry, on a Natural Person, and returning the resultant Credit Report.

Credit Check offers a comprehensive range of functionalities and provides subscribers with access to the most up to date Bureau Data in the form of Consumer and Business Reports.

Bureau subscribers can access such data for a prescribed purpose as per the regulations, including the performance of Affordability Assessments by Credit Providers and Credit Assessments by Debt Counsellors.

Credit Check caters for both credit and non-credit providers, to allow equally beneficial access to our data.

Credit Check furthermore allows you to:

- Obtain Credit Scores (Compuscore A/Commercial Score).
- Perform credit enquires on both Consumer and Commercial data.
- Request and view researched credit reports.
- Get Codix Results (Credit/Risk Decisioning Tool).
- Register, closure and cancel loans and accounts.
- Fraud Registration.
- Request and view banks codes.
- View Triggers and Alerts.
- Register tracing on customers and be notified as a consumer's contact information changes.
- Auditing to track enquires, triggers and alerts, and user activity.
- Record loan and account payments either by single customer or in bulk format.

Built on the latest HTML5 tech. Secure with HTTPS format where all communications between your browser and the CCV2 are encrypted.

5 Reasons to make use of Credit Check

- Easily access consumer and business credit reports and scores.
- Register, close and cancel loans and accounts.
- Update payments on loan and accounts.
- Triggers and Alerts notifications on consumer profile changes.
- Register tracing on customers and be notified as a consumer's contact information changes.

Take control of your credit agreement and loan management processes by contacting one of our knowledgeable consultants at bw.info@experian.com.

Credit Check

How it Works

- Credit Check is accessed through a user-friendly web interface.
- Credit reports, account and behaviour data, contactability information and positive/negative information on consumers or companies can be obtained in real time.
- The service allows you to effectively perform the necessary affordability studies and is constantly reviewed to take changes in credit legislation into consideration.
- Register, closure and cancel loans and accounts granted and updates payment when received.
